

Dear FCC,

My family and I are regular listeners to K-LOVE. It provides uplifting music without the interruption of commercials, and it is a safe alternative for my family compared to other music stations in our area. When we travel, we are encouraged to be able to listen to K-LOVE in most major cities. We also love knowing that our friends and families in other parts of the country are listening to the same music at the same time.

We are concerned that LPFM stations may replace the K-LOVE signal. Without K-LOVE, our family and the others in our community would be not be able to enjoy their outstanding programming.

With its wholesome music and uplifting DJs, K-LOVE enriches our community. I see K-LOVE bumper stickers on many cars, and I feel a kinship with those other drivers. I know they share my values as well as my taste in music.
